

# BLAIR RUBBER LININGS

**ENDURAFLEX™**

**PLIOWELD™**

**MARFLEX™**

**This manual offers general guidelines in the application of Blair Rubber Linings. Specific application procedures, recommendations, etc. may vary. Consult the Blair technical department for specific application procedures and/or recommendations. We will provide state of the art technical information with practical solutions for your application, corrosion and abrasion problems.**

# ENGINEERING & APPLICATION MANUAL

## Index

### SECTION RUBBER LINING MATERIALS SECTIONS 1-5

- 1 INDEX
- 2 ENDURAFLEX™ LINING SPECIFICATIONS
- 3 PLIOWELD™ LINING SPECIFICATIONS
- 4 MARFLEX™ LINING SPECIFICATIONS
- 5 ENDURABOND™ CEMENT SPECIFICATIONS

### SECTION ENGINEERING SECTIONS 6 - 10

- 6 **CHEMICAL RESISTANCE TABLE**
  - Hydrochloric Acid & Tank Linings
  - Sulfuric Acid & Tank Linings
- 7 **ESTIMATING**
  - Shop Tank Lining Estimate Sheet
  - Field Tank Lining Estimate Sheet
  - Table of Conversion Factors
  - Lining Areas of Tanks, Cars, and Storage Tanks with Dished Heads
- 8 **METAL FABRICATION (PROCEDURES FOR RUBBER LINING)**
  - Specifications For Welded Steel Parts (RMA Bulletin 1)
  - Specifications For Pipe & Fittings (RMA Bulletin 2)
- 9 **STANDARD TEST PROCEDURES**
- 10 **EFFECTS OF BRICK LINING AT ELEVATED TEMPERATURES**
  - (RMA Bulletin 14)

**SECTION            APPLICATION SECTIONS 11 - 21**

**11                    EXAMPLES OF RUBBER LINING APPLICATIONS**

- Flue Gas Desulfurization Systems
- Phosphoric Acid Equipment
- Water and Wastewater Treatment Equipment
- Hydrochloric Acid & Tank Linings
- Sodium Hypochlorite and Other Bleaches
- Gold ore Processing
- Nuclear Power Water Treatment Facilities
- Abrasion Resistance - Elastomeric Sheet Linings (RMA Bulletin 10)

**12                    METAL PREPARATION (BLASTING AND CEMENTING PROCEDURES)**

**13                    RUBBER LINING APPLICATION PROCEDURES**

- General Rubber Lining Principles
- Rubber Lining Pipe Requirements For Field Installation of Elastomeric Sheet Linings (RMA Bulletin 3)
- General Procedure For Application of Elastomeric Sheet Linings (RMA Bulletin 4)
- General Procedure For Applying Elastomeric Sheet Linings in Pipe (RMA Bulletin 7)

**14                    CURING INSTRUCTIONS**

- Pressure Cure
  - Autoclave Curing Instructions
  - Internal Steam Cure
  - Pressure-Temperature Equivalents of Saturated Steam
  - Internal Steam Cure and Precured Rubber on Flanges
- Exhaust/Atmospheric Steam Curing Instructions
  - Steam Requirements For Atmospheric Cures
  - Boiler Size Calculations
- Chemical Curing
- Hot Water Curing Specification
  - Chemical Cure Elastomeric Sheet Linings (RMA Bulletin 16)

**15                    INSPECTIONS**

- Inspection Procedure
- Spark Testing Rubber Lining
  - Elastomeric Sheet Lining Inspection Before and After Vulcanization (RMA Bulletin 5)
  - Standard For Surface Appearance of Elastomeric Sheet Lining Materials (RMA Bulletin 6)
  - Procedure For Spark Testing Elastomeric Sheet Lining (RMA Bulletin 13)

<b>SECTION</b>	<b>APPLICATION SECTIONS 11 - 21 CONT'D</b>
16	<b>REPAIR PROCEDURES</b> Repairs to Rubber Lined Equipment
17	<b>RUBBER LINING SPECIFICATION GUIDE</b> Suggested Standard Specifications For Elastomeric Lined Equipment (RMA Bulletin 12)
18	<b>QUALITY ASSURANCE MANUAL</b>
19	<b>CONCRETE LINING</b> Rubber Lining Concrete Tanks Concrete Surface Treatments
20	<b>CARE AND MAINTENANCE OF LININGS</b> Tank Lining Inspection & Maintenance Strategy General Precautionary Measures For Use with Elastomeric Materials (RMA Bulletin 7) Tank Lining Inspection & Maintenance Strategy Storage of Elastomeric Lined or Covered Equipment (RMA Bulletin 8) Tank Lining Inspection & Maintenance Strategy Care and Use of Elastomeric Lined Equipment (RMA Bulletin 15)
21	<b>GLOSSARY (RMA BULLETIN 17)</b>
